<u>PETITION UNDER 37 CFR 1.181 TO</u> WITHDRAW THE EXAMINER'S HOLDING OF ABANDONMENT

Commissioner for Patents Washington, D.C. 20231 Dear Sir:

The Commissioner is hereby petitioned under 37 CFR 1.181 to withdraw the Examiner's holding of abandonment of the above-identified case for an alleged failure to timely respond to the Office Action mailed March 20, 2003. Applicants believe that there is no fee required with the filing of this petition; however, the Commissioner is hereby authorized to charge payment of any fees associated with this communication, including fees required to make any additional copies of this petition, to Deposit Account No. 16-2480 in the name of The Procter & Gamble Company therefor.

REMARKS

With regard to the above-identified Application, Applicants received a Notice of Abandonment mailed by the PTO on October 2, 2003 (copy enclosed) stating that this Application is abandoned in view of Applicants' failure to timely file a response within the statutory period of six months from the

mailing date of the Office Action. Applicants submit that the Examiner's holding of abandonment is erroneous for the following reasons:

- 1. On March 25, 2003, Applicants received a final Office Action mailed by the PTO on March 20, 2003 (copy enclosed). The time period for response within the statutory period of six months fell on Saturday, September 20, 2003. As a result, the time period for response tolled until Monday, September 22, 2003.
- 2. On Monday, September 22, 2003, Applicants' attorney filed a proper response to said Office Action. The response included: an amendment in response to the final office action; a PTO SB30 RCE transmittal; and a PTO SB17 fee transmittal. The response was sent via facsimile to the Examiner's attention at Technical Center 1700 (copy enclosed). The Auto-Reply Facsimile Transmission confirmation sheet (copy enclosed) generated by the PTO indicates that 14 pages (including the cover page), which constituted Applicants' response, were received by the PTO on September 22, 2003 at 3:37 p.m., EST.

In view of the foregoing remarks, Applicants seek favorable action by the Commissioner to reverse the Examiner's holding of abandonment of the above-identified Application. Accordingly, Applicants respectfully request that the response to the Office Action be viewed as having been filed in a timely fashion and that the processing of the Application to issuance be continued.

Respectfully submitted,

Angela Marie Ston

DETAILED ACTION

- 1 This action is responsive to the remarks filed on January 21, 2003.
- The rejection of claims 47-71 under 35 U.S.C. 103(a) as being unpatentable over Baeck et al. (US 5,679,630) in view of Aaslyng et al. (US 6,197,567), is maintained for the reasons set forth in the previous office action on paper No. 3, dated 7/18/2002.

Response to Applicant's Arguments

3 Applicant's arguments filed on 1/21/2003 have been fully considered but they are not persuasive.

With respect to the rejection based upon Baeck (US' 630) in view of Aaslyng (US' 567), Applicant argues that there is no motivation to combine the references.

The examiner respectfully disagrees with the above argument because Baeck (US' 630) as a primary reference teaches and discloses a protease-containing cleaning composition comprising a protease variant having an amino acid sequences derived by replacing of amino acid residues that corresponding to positions 76 and 103 with one or more other amino acids correspond to different positions (see col. 3, lines 12-31). Aaslyng (US' 567) teaches in analogous art detergent composition comprising a modified protease variants that include different amino acid sequences relative to their parent proteases among the amino acids residues corresponds to positions at any one or more positions such as position 76 (see col. 21, lines 25-28) and at least one further amino acids residues occupying other positions such as 103 (see col. 21, lines 39). Further, Aaslyng teaches that the decrease in the NEC of the enzyme under circumstances could results in an improved wash performance of the enzymes (see col. 20, lines 22-30), and, thus, a person of the ordinary skill in the art would be motivated to modify the

Application/Control Number: 10/047,689

Art Unit: 1751

Page 3

protease enzymes as taught by Aaslyng for a reasonable expectation of success. Therefore, there is a motivation to combine the references. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eisa B Elhilo whose telephone number is (703) 305-0217. The examiner can normally be reached on M - F (7:30-5:00) with alternate Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on (703) 308-4708. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9310 for regular communications and (703) 872-9311 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.

GREGORY DELCOTTO PRIMARY EXAMINER

FEB 20 2003

Commissioner for Patents Washington, DC 20231 www.uspto.gov

Dear Patent Business Customer:

The United States Patent and Trademark Office ("Office") is now permitting and encouraging applicants to voluntarily submit amendments in a revised format as set forth in AMENDMENTS IN A REVISED FORMAT NOW PERMITTED, ____ Off. Gaz. Pat. Office __ (February 25, 2003), currently available on the USPTO web site at http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/revamdtprac.htm. The revised format permits amendments to the specification and claims to be made in a single marked-up version: the requirement for a clean version is eliminated. Attached, you will find a flyer with information and instructions regarding the procedures to be used to comply with the revised format. The flyers are being inserted with out-going Office actions mailed during the period of February 20, 2003 - March 31, 2003.

The revised amendment format is essentially the same as the amendment format for the specification, claims, and drawings that the Office is considering adopting via a revision to 37 CFR 1.121 (Manner of Making Amendments). The revision to 37 CFR 1.121 (if adopted) will simplify amendment submission and improve file management. This proposed revision and others necessary to facilitate a gradual transition to the use of an Electronic File Wrapper (EFW) will be set forth in a Notice of Proposed Rule making (NPR), expected to be published by March 2003. After consideration of public comments, the Office anticipates adopting a revision to § 1.121, following publication of a Notice of Final Rule making (NFR), expected by June 2003, at which point compliance with revised § 1.121 will be mandatory.

The Office will continue to accept your amendment submissions in the revised format during the voluntary period, which will extend up to the effective date of final revisions to § 1.121. The Office also encourages vour feedback on the proposed revised amendment format and other changes set forth in the NPR, expected to be published by March 2003.

For assistance: Any questions regarding the submission of amendments pursuant to the revised practice should be directed to Office of Patent Legal Administration (OPLA), Legal Advisors Elizabeth Dougherty (Elizabeth.Daugherty@usnta.gov), Gena Jones (Eugenia.Jones@usnto.gov) or Joe Narcavage (Joseph, Narcavage@uspto.gov). Alternately, you may send e-mail to "Patent Practice", the OPLA email address that has been established for receiving queries and questions about patent practice and procedures or telephone OPLA at (703) 305-1616.
